Well, I could be wrong, but I think he misinterpreted a few things...they aren't unfixable though. I just haven't had the time to go through this properly. Ah well, it will help to meet.

And...it's never too early for chocolate!

Ha! Ravi is on the train to NY (where I am headed tomorrow morning! ☺). I will come in support of the genetox chairs. Is it too early in the day for chocolate???

Where is the translation getting lost—with Sury?

I think this meeting will be important to avoid churning, but I foresee it working out smoothly if we can all get on the same page. I was out sick a couple days this week so I've been behind in checking up on all of this. Ex. 5 Deliberative Process (DP)  
Ex. 5 Deliberative Process (DP) It may be good for you to attend, but I can't say for sure right now how necessary it will be. Er, I mean, you are our leaders! Please come tell us what to do! ☺

Guys,

How is this going...? Shall I plan to attend this meeting? I see a lot of back and forth and want to make sure we are getting closer to closure and not churning.

Hi Andrew,

Good morning. Thanks for the mail. Regarding the questions you asked...

# Ex. 5 Deliberative Process (DP)

OK, I will get back to my ADME revision now. Also, I am working on my review of the NPC MOA (from Lynn Adams) and will send my comments to Jason.

Sury

Thank you for revising this so quickly, Sury. I like the summary layout. I had just a few, quick thoughts from a rapid skim of the attachments:

## Ex. 5 Deliberative Process (DP)

Thank you again for turning this around so quickly,  
Andrew

Hi Nagu and Catherine,

Good morning. Thank you very much for providing the comments on the FA-GeneTox section. Since there were several comments it took a while in revising the draft. Also, being a huge file I faced issues while saving the draft and sometimes lost some text which also added to the delay. It would be easier to work with one section separately. Anyway, here is the revised version with track changes.
